It is also important to note that elders were not born elders; they were kids like us and now have grown old. A few years hence we will also grow older. If today we respect them, our present and future generations will carry those values and will learn to respect us as well when we grow old.</p> <p>Elders have a lot to share with us: their life experiences, their failures, their successes and many more. Thus, we need to care for them because they deserve to be cared for. Respect and care for elders start with our parents as they are our first teachers in our life.</p> <p>No matter what we do in our lives, who we are, and where we live, we must love them as they love us unconditionally. They feel honored when we appreciate their love and respect them. So, it is our duty to help them when they need us because they are not young enough to handle things on their own like before.</p> <p>جملات زیر با نوشتن یک کلمه از متن کامل کنید.</p> <p>41. The internet has changed the way we learn foreign languages. Online dictionaries are a great resource for anyone who wants to learn a new language. They are one of the most useful tools you can use to expand your vocabulary and knowledge of a foreign language. Some features are only available in online dictionaries:

**A search box:** you can search for words by typing or clicking on them in this box.

**An Audio Function:** Many online dictionaries have an audio function that lets you hear how a word is pronounced.

**A History Button:** With this button you can go back to previous searches and see which words you have looked up recently.

**A Word of the Day:** You can usually subscribe to an email that will send you a new word every day.

**A Translate Function:** Some online dictionaries have a translation function that allows you to translate words into other languages. This is a slightly more advanced feature but very useful if you want to hear the word in another language.

But despite all these features, paper dictionaries still have their place. For some people they are easier to use, especially for those who do not have a computer or smartphone. Therefore, you might want to have both types of dictionaries at home. You can use a paper dictionary if you do not have access to the internet, and you can use an online dictionary if you do.

There are things we can do to reduce internet pollution and protect the environment. First, we can use less electricity by turning off our devices when we're not using them. **This** helps save energy and reduces pollution from power sources like coal and oil. It's also important to recycle our old devices instead of throwing them away. When we recycle, we prevent harmful materials from polluting the environment. Electronic waste can be dangerous, so it's better to recycle it properly. When we shop online, we should think about packaging and try to reduce waste. Online shopping often results in a lot of packaging materials that harm the environment. By being careful about what we buy and choosing products with less packaging, we can help reduce waste. In conclusion, the Internet can cause pollution, but we can do some things to make a difference. Let's use less electricity, recycle our devices, and be careful about our online shopping habits to protect the environment.
