

## درباره پروژه

برای یک پروژه بین المللی نیاز به یک متخصص فیگما داریم که ۱ صفحه رو برام باز طراحی کنه. این پروژه تست است و در صورت موفقیت ادامه پروژه به شما واگذار میشه.

هدف از این پروژه ریدیزاین کردن UX یک وب سایت saas با استفاده از کامپوننت های موجود .

نکته نحوه کار برنامه باید ثابت بمونه اما رابط کاربری نیاز به یک تغییر اساسی داره.

نحوه کار برنامه:

- یوزر یک سری فایل رو اپلود میکنه
- پس از کلیک بر روی دکمه استخراج کردن محتوا از فایل های pdf – word استخراج میشه و محتوا داخل المنت ها قرار میگیره (text inputs , title , questions , ...).
- هدف اصلی این قسمت اینه که سوالات و عنوان و یک سری مشخصات دیگه که در مشخص هست رو با هوش مصنوعی استخراج کنیم
- مرحله بعد اینه که دوباره با هوش مصنوعی به سوالات استخراج شده جواب بدیم و ۳ مدل فایل درست کنیم:

- Carbon reduction plan
- H&S Policy
- Social value

این مرحله نیاز به یک ریدیزاین اساسی داره. همونطور که میبینید این قسمت اصلا برای یک کاربر عادی مشخص نیست و بسیار گمراه کننده. دوست داریم که در این قسمت تجربه و خلاقیتتون رو بینم.

1. Commitment to Achieving Net Zero

Google is committed to achieving Net Zero greenhouse gas emissions by 2050 at the latest. We recognise the importance of reducing our carbon footprint across our cleaning services and construction sectors and will integrate sustainability into all areas of our operations.

2. Baseline Emissions Footprint

Baseline Year: 2024

This is the first year for which Google has calculated its full carbon footprint.

| Emissions       | Total (tCO <sub>2</sub> e) |
|-----------------|----------------------------|
| Scope 1         | 15                         |
| Scope 2         | 20                         |
| Scope 3         | 60                         |
| Total Emissions | 95                         |

3. Emissions Reduction Targets

In order to progress towards Net Zero, Google has adopted a carbon reduction target. We project that our carbon emissions will decrease by 40% by 2030. This involves a projected annual reduction of approximately 5.8% per year, steadily reducing our emissions footprint to support the UK's climate goals and promote sustainable business practices.

4. Carbon Reduction Projects

Completed and Planned Measures

Switch all offices to renewable electricity tariffs and optimise building controls:

Introduce supplier carbon reporting requirements to tackle Scope 3 emissions:

Launch staff engagement and travel reduction programmes with quarterly reporting:

5. Declaration and Sign Off

Google confirms that this Carbon Reduction Plan has been prepared in accordance with UK government requirements and demonstrates our commitment to reducing carbon emissions.

Signed on behalf of Google:

Abbas

Health and Safety Policy

1. Health and Safety Policy Statement

Google is committed to preventing accidents and ill health and ensuring full compliance with the Health and Safety at Work Act 1974. Our goal is to maintain a safe and healthy working environment across all operations, including cleaning services and construction sectors, with particular attention to office operations at the Head Office.

2. Responsibilities

2.1 The Company's Responsibility

Google will provide safe equipment, handle substances safely, offer necessary training, ensure safe access to all work areas, and consult with employees on health and safety matters. The company is committed to maintaining a safe workplace across all work locations.

2.2 Employee's Responsibility

Employees must take reasonable care of their own health and safety and that of others affected by their work. They are required to co-operate with company policies and report any safety concerns or hazards immediately to Abbas, the designated responsible and competent person.

3. Key Arrangements

3.1 First Aid

Google will ensure adequate first aid provisions by appointing trained persons and maintaining well-stocked first aid kits at the Head Office and other relevant locations.

3.2 Fire Safety

The company will assess fire risks regularly, keep all escape routes and fire-fighting equipment clear and maintained, and conduct regular fire drills to ensure employee preparedness.

3.3 Hazard Reporting

Employees must report any identified hazards or defects immediately to Abbas to ensure prompt action and risk reduction.

4. Policy Review

This Health and Safety Policy will be reviewed annually and revised as necessary to maintain its effectiveness and compliance with legislation.

Social Value Policy

1. Our Purpose and Commitment

Google is committed to creating positive social, economic, and environmental impact in the communities it serves, particularly across the cleaning services and construction sectors. This policy outlines the framework through which we will deliver that commitment, embedding social value into our everyday operations and long-term strategy.

2. Our Social Value Pillars

2.1 Environmental Stewardship

We are dedicated to protecting and enhancing the environment by integrating sustainable practices within our operations. We will:

- Deliver community tree planting days twice per year.
- Achieve zero waste to landfill across operations by 2026.

2.2 Community Investment

We believe in supporting the communities where we operate by investing time and resources to create shared value. Our initiatives include:

- Providing volunteering days for every employee to support local charities.
- Allocating 1% of annual profits to a community grant fund.

3. Implementation and Responsibility

The leadership team at Google is responsible for championing this Social Value Policy. Abbas, as the designated responsible person, will oversee its implementation to ensure our commitments are met. All employees are encouraged to actively contribute to achieving our social value goals.

4. Monitoring and Review

Google will monitor its social value impact and review this policy annually to ensure it remains relevant, effective, and aligned with our evolving priorities.
