

Why everyone needs Lenovo Ideapad 120S laptop?

These days, no matter what you do, probably a laptop plays an important role in your daily life. When it comes to buying one, you face a various range of brands and prices that make it hard to make the best choice. There are some factors you should consider before buying a laptop, like: Battery life, memory storage, portability and light weight, computing power, efficiency, screen quality, RAM, and etc.

In this post, we introduce the high quality, built to last, Lenovo Ideapad 120S laptop with a compact design and a powerful dual-core Intel CPU that gives you a great experience in an economic price.

Powerful, Durable and light

Lenovo Ideapad 120S features a Celeron N3350 processor and a 4GB RAM helping you with everyday tasks. Known as on-the-go product, Lenovo Ideapad 120S has a compact design that makes you feel comfortable carrying and storing it wherever you desire. There is also a protective finish guarding the laptop against scratches while carrying it.

One portable memory and Various connections

You can easily store your important files and apps on its 32GB internal storage. It supports connection channels including Wi-Fi, Bluetooth 4.0, HDMI, USB 3.0 and a USB 3.0 with always-on charging, micro SD card reader and 3.5 mm audio jack.

Feel the ultimate HD landscape

With 11" HD anti-glare screen, you can feel the crystal clear view with all details, enjoying video chatting, web browsing and studying documents.

Reliable battery and a portable power bank

8-hour long battery life gives you the peace of mind for working in long periods without worrying about running out of energy, in addition to being capable of charging other devices like your phone, even it's turned off.

User friendly and knowledgeable

Lenovo Ideapad 120S runs with Windows 10 Home which features Windows Cortana as your personal assistant that answers any questions you have.

Ease of use

The ergonomic layout of keyboard and sturdy keys give you a comfortable typing experience for long periods of writing. With multi-finger touchpad you are able to easily zoom the pictures and move around.

Therefore, Lenovo Ideapad 120S is a great choice if you're seeking a powerful laptop in a low price (below 200 GBP), with high efficiency and good portability.
